NICE MEETING 14-15 JUNE

## PARTNER ACTIVITIES according to SOCIAL MEDIATION

- *Partner: COOP SOC LA COMUNITA'*
- *Target group: parents*

Which is, for your organisation, the most successful action of social mediation to support parents dealing with social and professional troubles in order to create a renewed environment where children have supportive relationships with other children and adults feel happy and safe and are free to imagine and explore as they journey through the neighbourhood

<b>Project title:</b>	Support groups for parenting
<b>Description:</b>	A weekly group meetings between parents in the presence of a professional facilitator, a brief theoretical approach to adolescent development topics and open discussion of sensitive themes of confrontation internal to the various families. Possibility of personal meetings with the facilitator, individual career support. Information on training, work and school in collaboration with the network of social services, development and knowledge of the map of the various educational agencies and to support parents in their area.
<b>Strengths:</b>	Free and free access to groups, active participation of parents, ability to take examples from real life and compare them with the realities of the various families and others, together with its network of services if this was useful and necessary. Ability to use a comparison group and times of meetings as "private" very intimate and sensitive topics. Active participation of the facilitator is as professional as a parent.
<b>Weaknesses:</b>	Some heterogeneity in the groups offered to participants, the possibility of a more spontaneous and open, while the homogeneity has strengthened the sense of belonging and sharing the same: both

	<p>positions have been shown to have a saturation point where the extreme heterogeneity expired in little intimacy and homogeneity was extremely detrimental to the vitality of communication. But the real difficulty is found in the biggest financial cuts that prevent them from investing resources in preventive interventions discomfort.</p>
