<b>Outputs and results</b>	The program is on the way. AGORA propose in December a First Aid Stage in destination to 20 persons of the population. AGORA also propose information to parents about using and Danger of internet for the children.
<b>Strengths identified</b>	There is still a lot do but we noticed that discussions and making this partnership convention , although all the difficulties we had , were very positive on the former perception every organisation had on each other.
<b>Weaknesses</b>	Making this partnership between 7 organisations and leading this common convention is very complicated and specially when all those organisations are touched by the economic crises : working together when we all tend to withdraw into ourself and to protectionism. The State asked AGORA for this project during May2012. The Partnership Convention had been signed by the end of September and the Project had been accepted by the beginning of October. For our organisation that coordinate this project this is a very heavy job.
