December 2011 / January 2012

- *Partner: Cooperativa sociale La Comunità*
- *Target group: YOUNG*

Goal	Improve social and work inclusion of target group
Objectives	encourage the formation of a group of peers who can maintain their own web radio channel, with the help of educators who can transmit the basic technical knowledge and suitable instrumentation.
Methodology	Popular non-formal education as an empowerment tool for target group
No. of beneficiaries involved	Around 10 young people
No. of staff operators involved	4
Activities	The children in question meet weekly at Link aggregation center, in Genoa , and decide what kind of transmission do and strive for it, mixing and presenting music, or simply doing interviews that are subsequently assembled and transmitted online.
Outputs and results	It 'a constructive way of being together, experimenting with new technologies and creating virtuous relationships through the sharing and transmission of knowledge. Working together to achieve goals facilitates the formation of a group.
Strengths identified	collaboration between the boys and the fascination with new technologies. The ability to express themselves or in groups.
Weaknesses	*difficult replicability of the project, is sort of equipment that can only be found at the link. *inadequate resources to enhance and expand the service
Other information	we are trying to find tools and resources to start a path videomaking.
