Italian classes for young foreigners were activated too in order to provide them with support and widening of communicative abilities and to create a better daily interaction. Some of these young migrants have been the protagonists of programs who led them to assume their responsibilities and they became peer operators of the center activities.</p>
<b>Outputs and results</b>	Stabilization of peer education processes are certainly all useful indicators of young migrants’ empowerment.
<b>Strengths identified</b>	The action is based on involved people’s motivation and on an original mix of pre-professional and professional tools, which can be traced back to social aid and intercultural mediation fields.
<b>Weaknesses</b>	Lack of working opportunities, meant as possible alternative to illegal activities, and the resulting frustration caused by it.
