

Ceuta

Spain

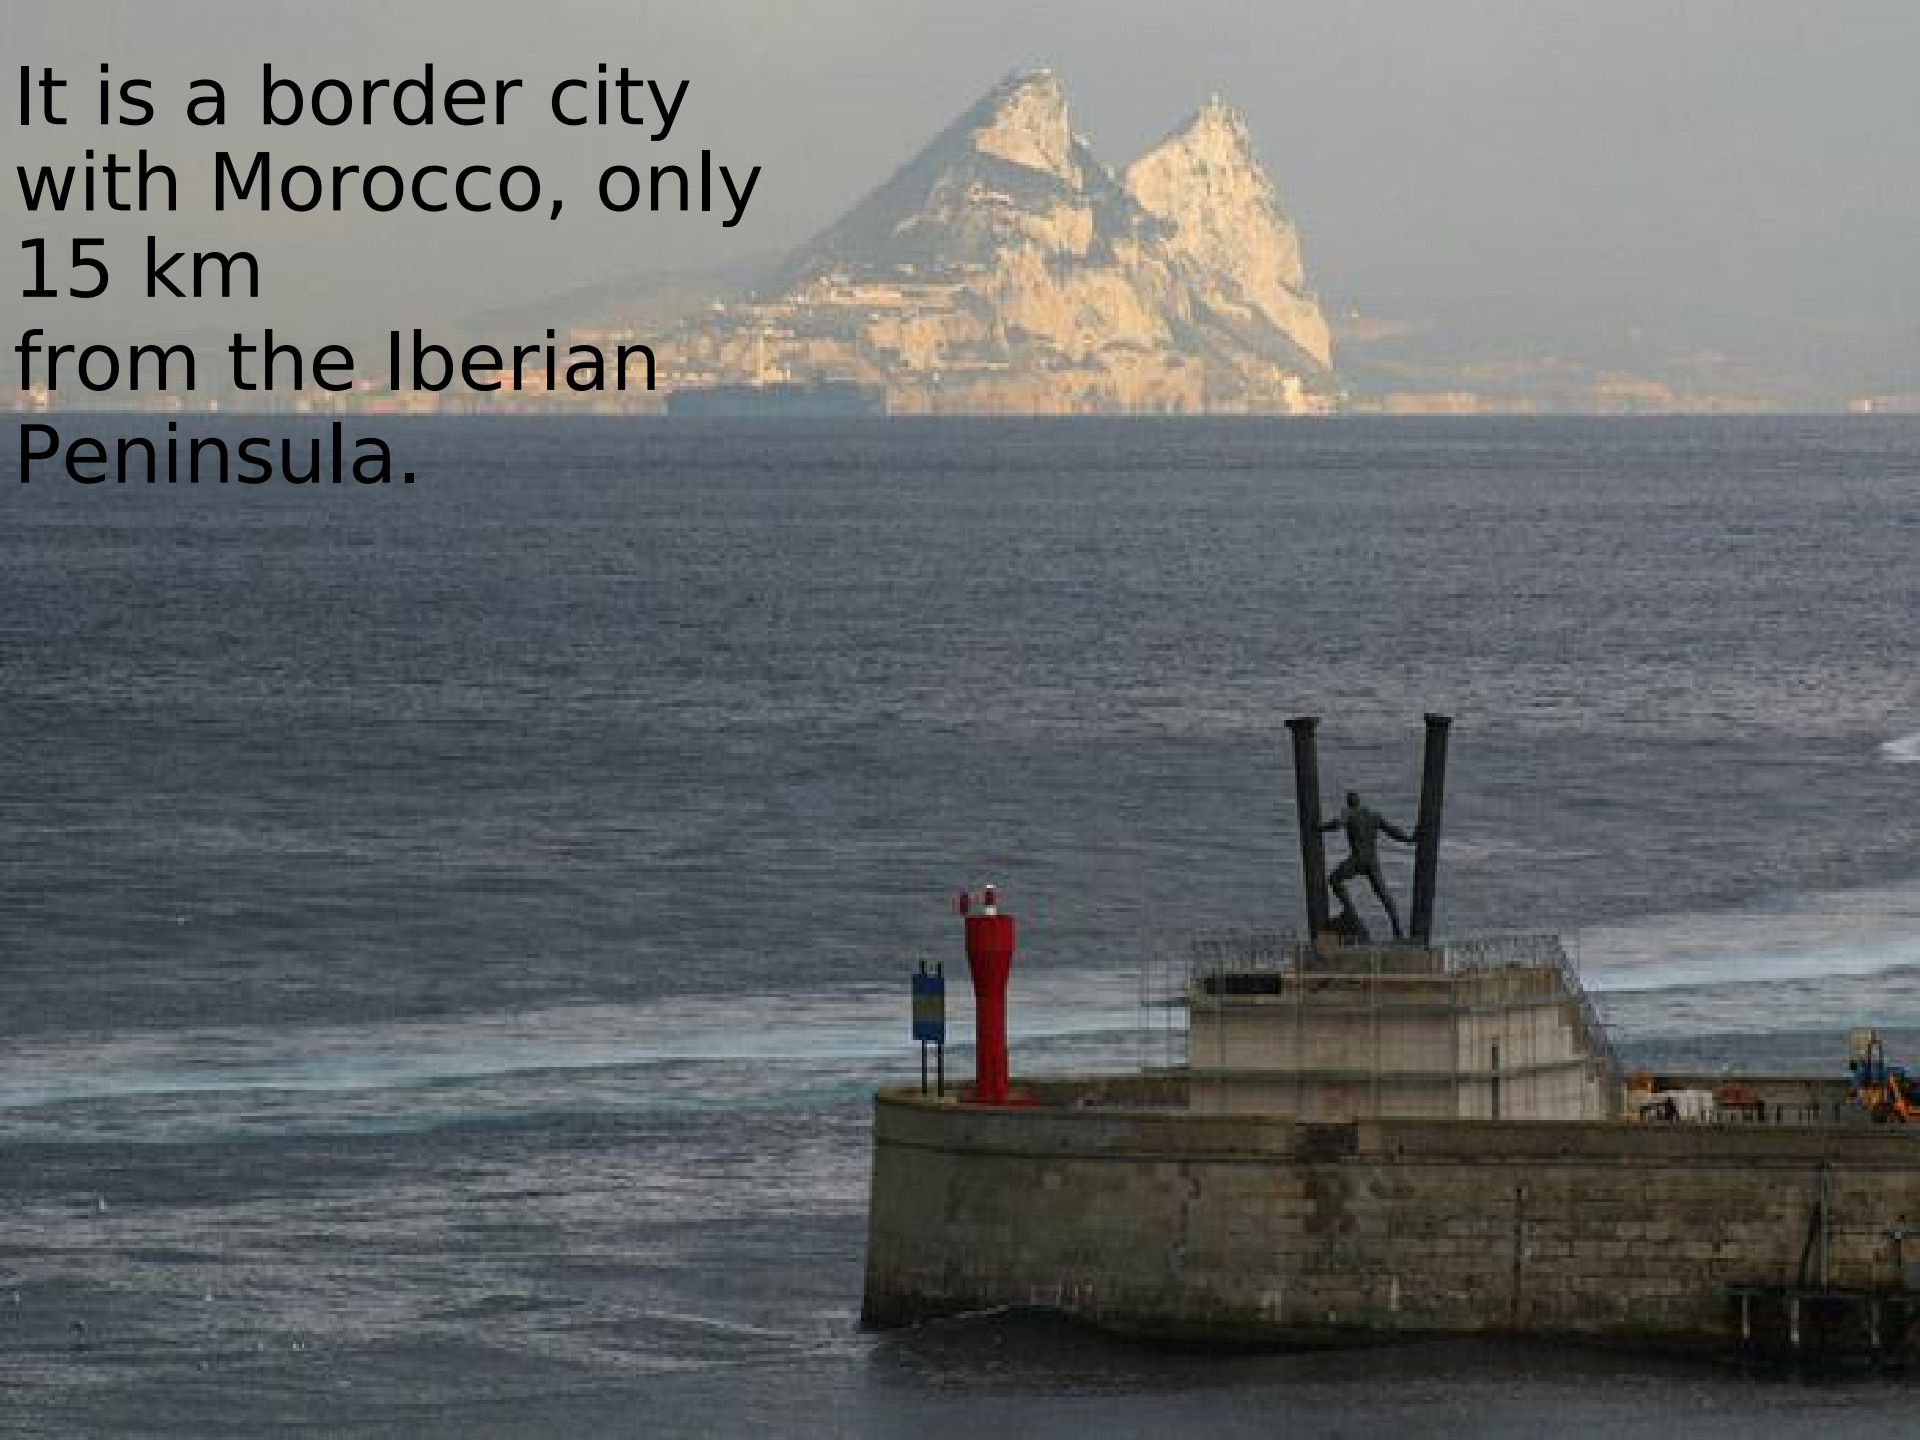

My
city.

Ceuta is a
Spanish city
located in the
North of
Africa.

It is a border city
with Morocco, only
15 km
from the Iberian
Peninsula.

Bathed by two seas, the
Mediterranean and the Atlantic.

You can access the city by ferry and helicopter.

Rich in history and traditions.

Its monuments and streets are the best example of cultural diversity along with its rich and varied gastronomy.

Ceuta is a multicultural city. Four cultures live together: Jews, Christians, Muslims and Hindus.

Its citizens are very kind and there is an atmosphere of peaceful coexistence and cultural integration.

**entertainment
there are
many and
diverse
activities.**

Their natural
environment is a gift
for the hearing.

Its beaches and the "Maritime Park of the Mediterranean" are of great tourist attraction.

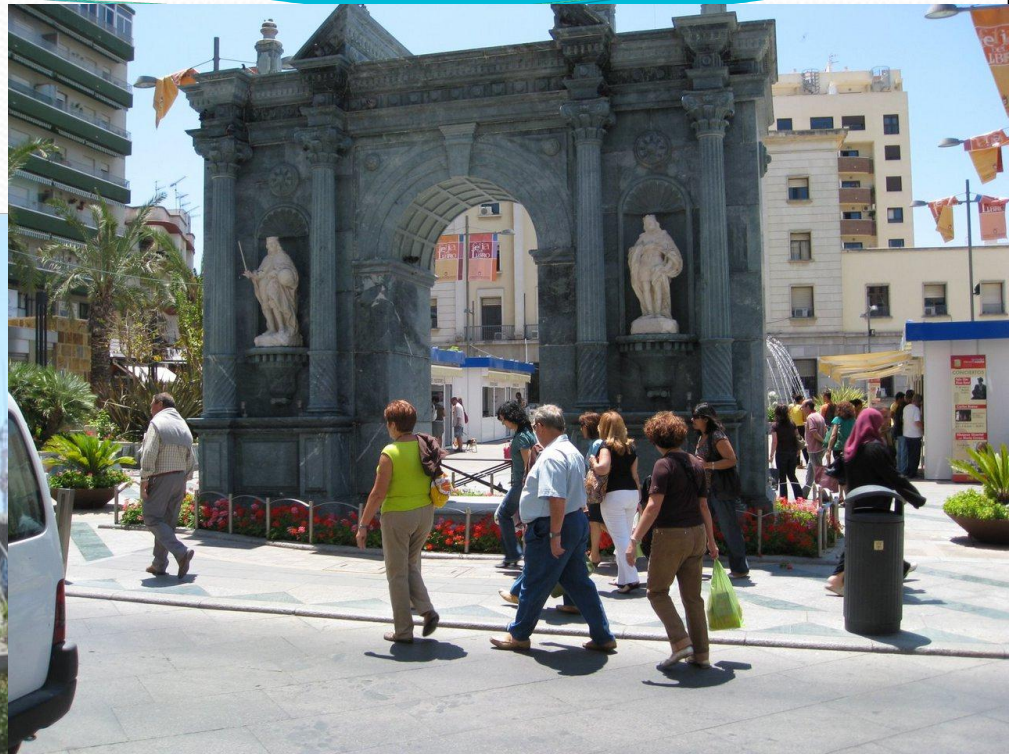

The "maritime park of the Mediterranean" is a great architectural work. A posthumous piece of art of the great architect Cesar Manrique. There are only two places of these characteristics in the world: in Ceuta and in the Canary Islands.

Their swimming pools are an extension of the sea water.
Simply wonderful.

Ceuta enjoys a good quality of life.

worthy of being visited! Come and Get to know it!

This is my school.

Here I work as a social worker in a "Program for the prevention of situations of risk in childhood and adolescence", led by the Town Hall and the Ministry of Education

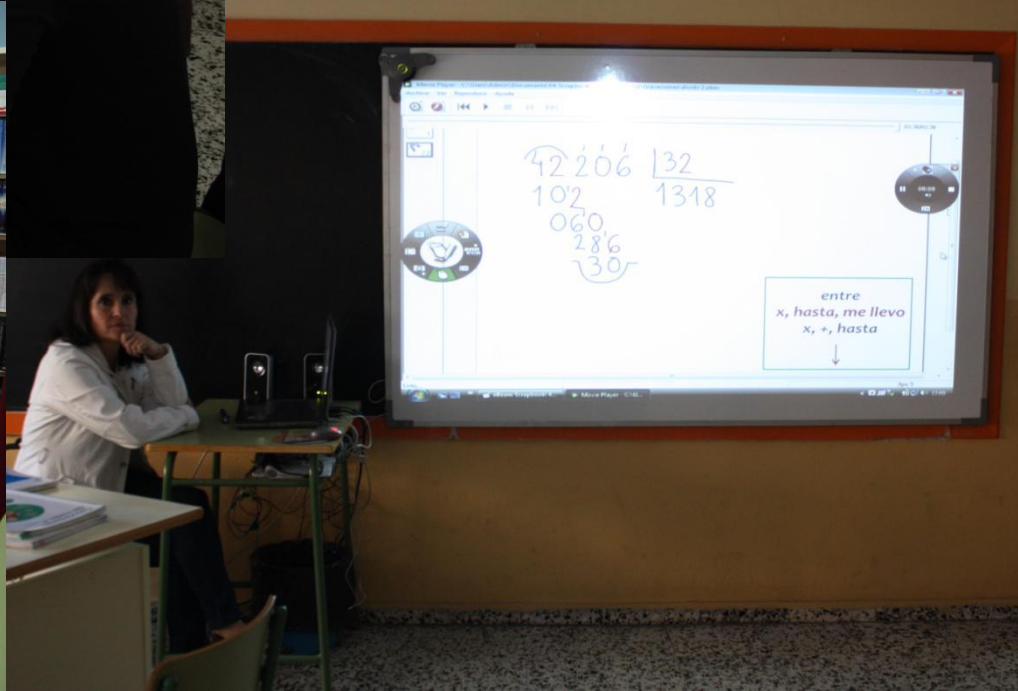

After many years of study and research and the necessity of the changes that occur in our society.

Whose main objective is to teach fathers and mothers how to behave with respect to social learning together with their sons and daughters due to the changes taking place in our society

With dynamic, cognitive, varied and recreational activities

With a very well trained multidisciplinary team and able to develop the project.

The facilities of the center are:

The library

And the classrooms equipped with digital slates

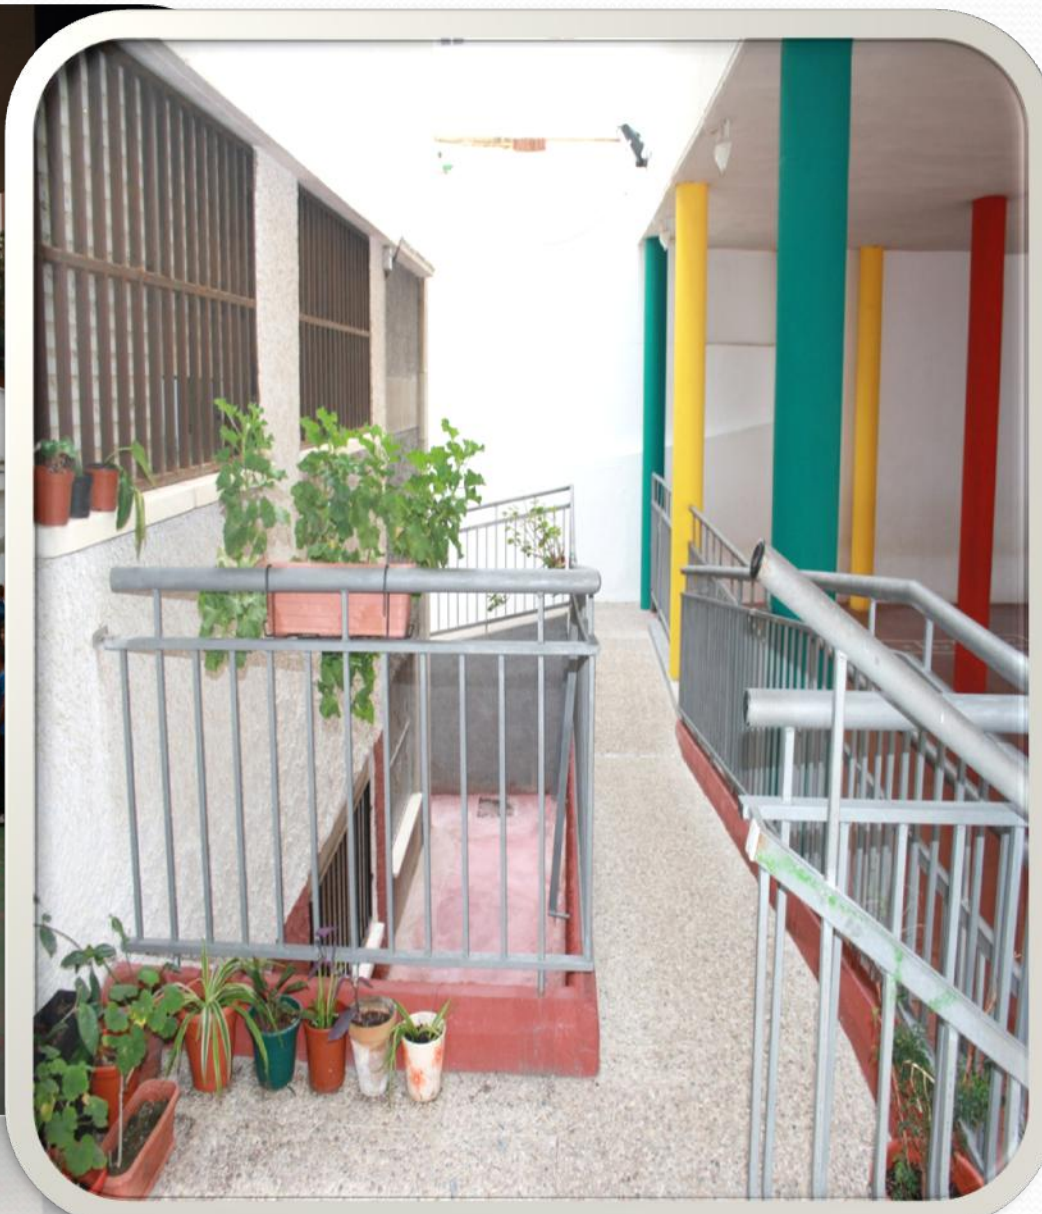

The teachers' room

and, the room of the chief of studies and the secretary

Finally, sport facilities and accesses to school

There are also workshops done in the afternoons with the collaboration of parents, mothers and teachers from the school. In these images you can see some examples of them:

I would like you to come to meet them personally. We will welcome you with illusion and kindness in this beautiful, diverse and wonderful city.
