

QUALITATIVE ANALYSIS OF INTERVIEWS

February / March 2012

- *Partner: Cooperativa Sociale La Comunità*
- *Target group: PARENTS*

1. **Analysis of the local labor market and context with regard to social policies.**

Following the collaboration with local schools, we have identified together with their parents, the need to confront some of the common issues concerning teens and pre teens.

2. **Awareness of beneficiaries about the opportunities in the labor market.**

Many of the beneficiaries were not aware of offers from local educational agencies

3. **Language skills and qualifications of the beneficiaries.**

The skills of the group are very different, from the Genoese foreigner with good professional qualifications

4. **Level of social inclusion and employment of recipients.**

Very different, has worked on more than one group.

5. **Standard of living of the beneficiaries and their job satisfaction.**

Some groups are characterized by the presence consistent professionalism and social status, others are more heterogeneous

6. **Level of satisfaction of beneficiaries of social services: strengths and weaknesses identified**

All the recipients have requested to continue the experience, showing great solidarity with one another. Having overcome the initial difficulties the first to open windows on your intimacy, beneficiari participated in an active and proactive. The weaknesses were the drastic reduction in economic resources necessary to continue the experience.

7. **Level of awareness among beneficiaries regarding their social and political emancipation.**

The awareness level is varied, all have shown a willingness to make progress in this direction.
