1. How did you implement the method adopted (popular education) in your local activities, thanks to project experience?

The development of the project and the use of popular education has allowed us to develop a working method that responds to the interests of young people. The popular education is a way of working that develops relationships between people, know-how and the ability to be.

The development of practical activities and creativity as an engine of development of individual skills.

2. The achievement of project objectives realizes together with the direct involvement and participation of target groups to every activity, in order to sustain their educational path, overcoming integrative difficulties and promoting their entrance in the social context.

How did you involve the beneficiaries in your local activities?

By the application of the principles of popular education means working in the local community through processes of social transformation. The practice methodology is developed in a process of dialogue with all those involved in which different types of knowledge are valued at the end of the construction of a project of "work and community intervention."

3. The project means empowerment as the process of social action through which beneficiaries, organizations and communities gain competences about their life, in order to change their social and political environment to improve equity and lifestyle.
